How to print

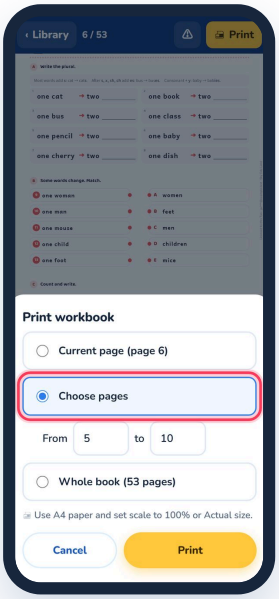

Phone

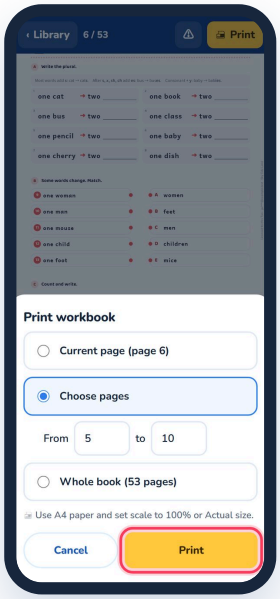

Print as many times as you like. If your child makes mistakes, just print the page again.

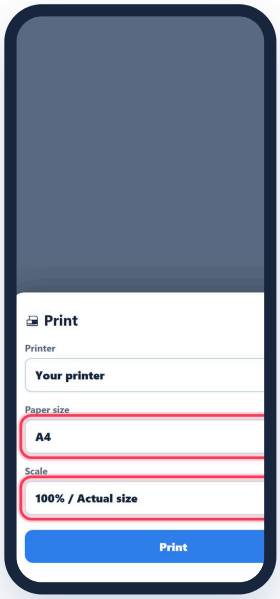

Red circle = where to tap

1. Open the workbook and tap **“ Print”** at the top right.
2. Choose the pages: **Current page**, **Choose pages** (e.g. 5 to 10) or **Whole book**.
3. Tap **“Print”**, wait for the pages to get ready, then pick your printer.
4. In the printer settings choose **A4** paper and scale **100%** or **Actual size**, then print.

On a phone, print 20 pages or fewer at a time, with the phone and printer on the same Wi-Fi. Workbooks can't be downloaded as PDF, but you can come back and print any time.
