How to use Teacher Sky

Phone

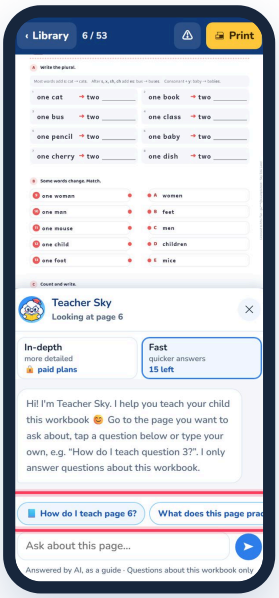

Teacher Sky is an AI helper: it doesn't just give answers, it shows parents how to guide the child step by step.

Red circle = where to tap

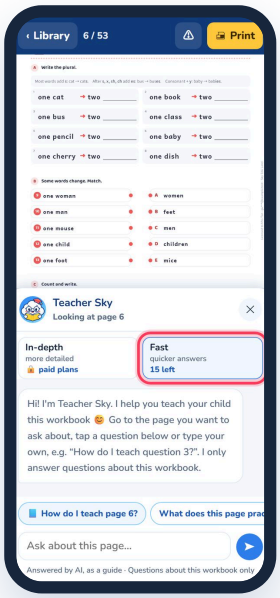

1. Open the workbook at the page your child is stuck on and tap **"Ask Teacher Sky"**.

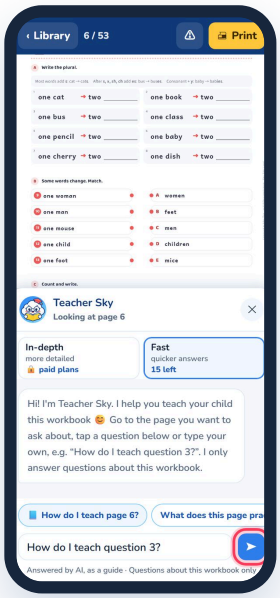

2. Tap a ready question, e.g. **"How do I teach page 6?"**.

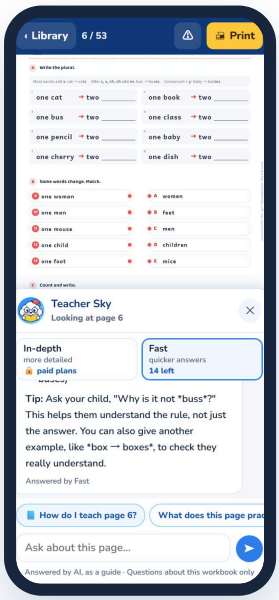

3. Pick **fast** (quicker) or **in-depth** (more detail, on a plan).

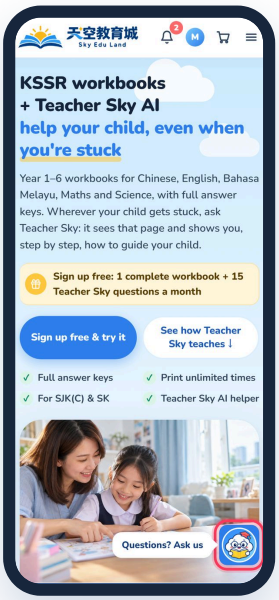

4. Or type your own, e.g. "How do I teach question 3?", and tap ➤.

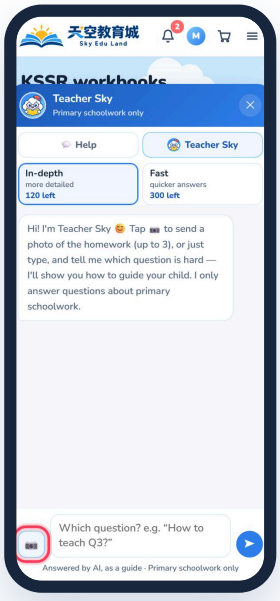

5. Teacher Sky shows you, step by step, how to guide your child to the answer.

6. **Family plan and up**: ask about school homework too. Tap **"Questions? Ask us"** at the bottom right.

7. Choose the **Teacher Sky** tab, tap 📷 to add photos of the homework (up to 3) and say which question is hard.

💡 Free members get 15 questions a month. Teacher Sky only answers primary school questions. It is AI, so its answers are a guide.
